A LIST of LETTERS

remaining in the Post-Office at Winchester, on the 1st day of October, 1826.

A.

Joseph Aiken, Esq. 2, Thomas Allen.

B.

Daniel Beckins, William Bateman, Doctor Edward Brisco, 3, Mrs. Catherine Bell, Samuel B. Brooks, Francis Brown, Miss Betsy, William Billington, Lieutenant Joseph Blake, Daniel Burbank, Caleb Bates, Stephen Barry, Cordilia Babcock, James Bury, Mr. Bellang, George Beatty.

C.

William Crain, Sear, Miles Church, Isaac Cardwell, William Cooper, Thomas Crawford, Beale Chandler, Mr. G. Collins, Abraham Cordrey, Co. Garrison Cooper, Hugh Coyle, Esq. Geo. Coyle, Joseph Chambers, Esq. 2, John Colwell, Esq. William Crede, Mr. Campbell, John Chalmers, Jun. Miss Margaret Cornwell, Polly Cook, Mr. Philip Cayton, John Carr, Esq. John Collings, Jesse Cox, Thomas Wilson, Andrew Chambers, William P. Curtis, Dr.

D.

John Darby, 2, Daniel Dover, Matthew Dwyer, James Dorsey, Miss Mary Ann G. Dunlap, Lieutenant Colonel Elliott E. Dorsey, Henry St. John Dowell, Jesse Dowell, Edward Douglass, Joseph Driggs, John Dyer.

E.

Doctor Thomas Ewell, Joel Elliott, John Evans, Elijah Edmondson, Evan Evans.

F.

Francis Poulter, Senr. Jos. Fickling, Esq. Alexander Frazier.

G.

Lindsay Gilpin, Casper Grosser, John Gooding, Isaac Garrison, 2, Mathew Gardner, Mr. Gideon Gravel, Esq. 2, Mrs. Ann Gilliay, Nathan G. 2.

H.

John Hunt, Lieutenant Alexander C. Harrison, Joseph Hughes, Nathaniel Hudson, Doctor Hugh Holmes, Esq. 2, Mordecai Hudson, Major Seth Hunt, William Hall, Esq. Daniel Hall, 2, Capt. Elijah Hazen, Doctor George Harris, 2, Elisha Hall, John Herse, Doctor Jacob Hartman, Miss Mary Heart, Jonathan Howe, 2, Elick Hardesty, Benjamin Hall.

I.

Lieut. Ralph Isaacs, 2, Walter Jones, Esq. Charles Irwin, Alexander Jones, Esq. Richard Jones.

K.

Edmund P. Kennedy, 2.

L.

Doctor Webster Lewis, Mr. John Lincoln, Lieutenant Colonel Lothian, Mr. John Lewis, Mr. Samuel Lovett, 2, James Lowman, Lieut. James Lowman, Mr. Moses Lewis, Mr. Alexander and Robert Leiling.

M.

Alexander M'Cormick, Charles M'Clay, Jacob, Daniel Murray, James M'Gill, Cornelius M'Sweeny, Thomas Moore, Abraham Mattox, Aretuah Mitchell, 2, William Mills, John M'Mahon, Mr. Mahoney, John Mills, Jun. Daniel M'Laughlin, Robert Munro, William Mackling, William Megee, Thomas M'Intosh, Mr. Mayson, James Morrison.

N.

Catherine Nigly, Morris Newman.

O.

Robert Ormsby, 2, Captain Richard O'Brier.

P.

John W. Pratt, Esq. John Phipps, Mr. Potts, John Price, William Pittman, Doctor John D. Perry, Augustus Page, Seth Pease, Esq. 2, William Pancake, Samuel Pancake, Samuel Pancake, John Payne, Lewis Pruchoume, Esq. C. Charles Pratt, John W. Pittman, Thomas Pearson, 2, Mr. Frederick Pearson.

R.

Mr. Thomas Richardson, Francis Richard, James Ruffound, Lieutenant Reed, Isaac Reed, Recorder of the United States, 2.

S.

John Stewart, Molley Sharp, Mrs. Ann Smith, 2, Lieut. Arthur Sinclair, Mr. Lewis Sandford, William Smith, Thomas Scarlington, 2, W. B. Shields, Walter B. Smallwood, Benjamin Strong, Thomas Shields, George Shetzer, Cato, Sewerd, Esq. Winthrop Sargent, Christian Smoomaker, Mr. Joseph Samson, John H. Seegrist.

T.

Jonathan B. Tuttle, Captain John Tudson, Mr. John Thomas, 2, George Turner, Mr. Tyler, James Taylor, Lewis Talbert, John Towny, Mr. Thomas, John Tyler.

V.

William Vernon, Sybert Vanschaick, Esq. Joseph Varden.

W.

Robert Ware, William Willis, 2, Joel Wendel, Mr. Wilson, Daniel Wilson, Charles B. Wright, James Fowler, Thomas Wolbert.

Patent Threshing Machine.

I HAVE invented a machine for threshing all kinds of Grain contained in Brooms or ears, principally where machine has been used on the trial to answer completely the purpose for which it was intended. Farmers now have in their power to get out their grain with expedition, free from waste, and at little cost. This machine is constructed on rather new principles: its operation is by flails attached by a spindle moved upon stationary wheels, and can be regulated at pleasure to thresh any grain more or less, as the circumstances, strength or particular kind of grain may require it. It will be found upon examining the principles on which this machine is constructed, that it will be the means of effecting at any great profit one hundred, it operates the grain from the fleam up of chaff, and shakes out the chaff from the straw; the combination is by no means complicated—not liable to get out of order and not expensive to cost. It has been found by fair experiment the power of four family mules or two good horses, are sufficient to thresh from one hundred bushels per day with great ease. Those on examine farms who will more grain threshed per day may obtain a sufficiency for a 16 by 16 making the machine larger, and applying more power if it may only leave the cattle to be fed indian meal, or any other food to the most honestous kind, nothing more would be necessary to bring our more little grain out. Those who have small farms on their farms may obtain a machine that may be put by winter at a small expense, by a small outlay of money, and those who are well with the gentlemen whether certificates I cannot, nothing need be fully those who are well with that, on request, I will be happy to refer whether they have few fagotes. My price for the machine, with my machine, is fifty dollars. I will dispose of my privilege for Frederick county, or any part, for the purchase on liberal terms. Letters addressed to me in Winchester, in Dunbin, Virginia, will be duly attended to.

JAMES DENEALE.

Dunbin, and Sept. 1st.

NO. I.

I do hereby certify, that I have a threshing machine, erected on the plan invented by Mr. James Deneale, of Dunbin, which exceeds any expectation. A great number of neighbors who have had it at work, think it does more leaves our grain in the thousand wasteful, than any other machine, and thinks the wheat is in the flour.

It perfectly answers the purpose over machine on the Scotch principle, as they will thresh out what goes into the ear flail, it is that all tangled wheat is not much more than half threshed. Mr. Deneale's machine threshes tangled wheat as well as any other in best flail perfectly clean.

In very dry weather Scotch machines fretted off a great number of heads, a great mixture of chaff and straw, this machine prevent seeing carried off by the fleam the very cast wheat.

I have seen Mr. Deneale's machine, Mr. Dunbin's Scotch machine, also one of Dunbin's machine, also one of Dunbin's machine, also one of Dunbin's
