BY Virtue of a Decree of the county court of Prince William, *will be SOLD* to the highest bidder on the 29th day of October 1807, before the tavern of Benjamin Brenaugh at Hay-Market on a credit of six months, the purchaser giving bond and approved security for the payment—the following TRACTS of LAND, belonging to the estate of *Henry Dade Hooe*, lately deceased.

One tract containing about 100 acres, lying in the county of Fauquier on the road leading from Haymarket to Fredericksburg. The quality of the soil of this land is excellent.

One other tract of land situate in Fauquier county near the Thorough fair Mills, containing 200 acres, having on it a Dwelling-House, Store House and Offices—also a Merchant Mill, upon a never failing stream, capable of being rendered extremely valuable. The soil of this tract is fertile, and about one fourth of it is good meadow land.

The decree under which the sale of this land will be made, was founded on the will of the said Henry D. Hooe, directing a sale of the same for the payment of his debts.

CAPITOL of the UNITED STATES.

NO Person whatever can be admitted into the south Wing of the Capitol, excepting those actually engaged in the work.

It is hoped that the citizens will see the necessity of this restriction being general. The injury done already by improper Visitors has been very considerable, and in the present state of the building which is about to be turned, the interruption occasioned by the admission of strangers might defeat all endeavors to get the house ready at the time required.

PROPOSALS,

BY CONRAD, LUCAS & Co.
(late M. and J. Conrad and Co.)
No. 138, Market street,

FOR PUBLISHING

LEWIS AND CLARK'S

TOUR TO THE PACIFIC OCEAN,

THROUGH THE INTERIOR OF THE CONTINENT OF NORTH AMERICA,

Performed by order of the government of the United States, during the years 1804, 1805, and 1806.

THIS work will be prepared by captain MERIWETHER LEWIS and will be divided into two parts, the whole comprized in three volumes octavo, the first containing at least 700 pages, the second and third from four to five hundred each, printed on good paper and a fair Pica type The several volumes in succession will be put to press at as early periods as the avocations of the author will permit him to prepare them for publication.

PART THE FIRST—IN TWO VOLUMES.

VOLUME FIRST.

WILL contain a narrative of the voyage, with a description of some of the most remarkable places in those hitherto unknown wilds of America, accompanied by a map of good size, a large chart of the entrance of the Columbia river embracing the adjacent country, coast and harbors and embellished with views of two beautiful cataracts of the Missouri; the plan, on a large scale, of the connected falls of that river, as also, of those of the falls, narrows and great rapids of the Columbia, with their several portages. For the information of future voyagers, there will be added in the sequel of this volume, some observations and remarks on the navigation of the Missouri and Columbia rivers, pointing out the precautions which must necessarily be taken, in order to ensure success, together with an itinerary of the most direct and practicable route across the continent of North America, from the confluence of the Missouri and the Mississippi rivers to the discharge of the Columbia into the Pacific Ocean.

VOLUME SECOND.

Whatever properly appertains to geography, embracing a description of the rivers, mountains, climate, soil and face of the country; a view of the Indian nations distributed over that vast region, shewing their traditions, habits, manners, customs, national characters stature, complexions, dress, dwellings arms, and domestic utensils, with many others interesting particulars in relation to them: also, observations and reflections on the subjects of civilizing, governing and maintaining a friendly intercourse with those nations. A view of the fur trade of North America setting forth a plan for its extension, and shewing the immense advantages which would accrue to the mercantile interests of the United states, by combining the same with a direct trade to the East Indies through the continent of North America. This volume will be embellished with twenty plates illustrative of the dress and general appearance of such Indian nations as differ materially from each other; of their habitations; their weapons and habiliments used in war; their hunting and fishing apparatus; domestic utensils, &c In an appendix there will also be given a diary of the weather kept with great attention throughout the whole of the voyage, shewing also the daily rise and fall of the principal water courses which were navigated in the course of the same.

PART THE SECOND—IN ONE VOLUME.

This part of the work will be confined exclusively to scientific research, and principally to the natural history of those hitherto unknown regions. It will contain a full dissertation on such subjects as may have fallen within the notice of the author, and which may properly be distributed under the heads of Botany Mineralogy, and Zoology, together with some strictures on the origin of Prairies, the cause of the muddiness of the Missouri, of volcanic appearances, and other natural phenomena which were met with in the course of this interesting tour. This volume will also contain a comparative view of twenty three vocabularies of distinct Indian languages, procured by captains Lewis and Clark, on the voyage, and will be ornamented and embellished with a much greater number of plates than will be bestowed on the first part of the work as is intended that every subject of natural history which is entirely new, and of which there are a considerable number, shall be accompanied by an appropriate engraving illustrative of it.

This distribution of the work has been made with a view to the accommodation of every description of readers, and is here offered to the patronage of the public in such shape, that all persons wishing to become subscribers, may accommodate themselves with either of the parts, or the entire work, as it shall be most convenient to themselves.

Detached from this work, there will be published

LEWIS & CLARK'S

MAP OF NORTH AMERICA,

From Lon. 0 deg. west, to the Pacific Ocean, and between 36 deg. and 52 deg. north Lat. with extensive marginal notes—dimensions 5 feet 8 inches by 3 feet 10 inches.

Embracing all their late discoveries, and that part of the continent heretofore the least known. This map will be compiled from the best maps now extant, as well published as in manuscript, from the collective information of the best informed travellers through the various portions of that region, and corrected by a series of several hundred celestial observations, made by captain Lewis during his late tour.

For the convenience of subscribers, these several works will be delivered at the most respectable commercial towns, and at the seats of government of the respective states and territories within the Union; no advance is required, nor will payment be demanded until such delivery is made.

The price of part the first in two vols will be Ten DOLLARS, and that of part the second in one volume, Eleven DOLLARS, delivered in boards. Price of the Map Ten DOLLARS.

Any persons who may have subscribed for these works, to lists which contain stipulated prices for the same, and who may be dissatisfied with the terms now proposed, are at liberty to withdraw their names from such lists, at any time prior to the 1st day of December next.

M. LEWIS.
