PROSPECTUS.

THE Subfcriber has long been impreffed with an opinion, that a newfpaper which fhould concentrate important ftatiftic facts, difplay national improvements, (particularly thofe arifing from canals and turnpikes) exhibit the advantages of labor faving machinery, and careful agriculture, in fhort that a paper which fhould regularly have a fpecific portion of its columns devoted to political economy, would be ufeful to his country, as tending to convince his fellow citizens of truths, of which all may not be fufficiently aware are effential to render the United States independant, refpectable and happy.

Such an idea has frequently been canvaffed among the friends of the fubfcriber, and as they agreed with him as to the advantages which might be diffufed thereby, they have often urged him to commence fuch an eftablifhment. Many difficulties originating in his ignorance of the mechanical parts of the bufinefs and other caufes, long rendered fuch an attempt however defirable impoffible: yet he never ceafed anxioufly to hope, the day would come when he might be enabled to undertake it—this anxiety has been tenfold increafed by the late daring and profligate attack on the Chefapeake whilft the neceffity of difseminating by means of a newfpaper (the moft popular of all modes) fuch information, as might tend to free us from the fhackles of foreign nations and promote within our own territory, the confumption of our own wheat barley, hops, cotton, flax, hemp iron, pitch, tar, turpentine beef, pork, as well as a number of other raw and manufactured articles, thereby fecuring to our own agriculturalifts (the beft fupport of our country) a fure ftimulus and efficient reward for their labor, has been felt and acknowledged by every true friend to the United States. Under thefe impreffions, the fubfcriber propofes to commence fuch an eftablifhment, and fhould a conftant view of the importance of agriculture and the arts, induce one individual in addition to our Franklins, Ritterhoufe's and Fulton's, to emulate the perfeverance and talents of a Brindley—a Bolton, a Bakewell, an Arkwright or a Parker, or lead one of our wealthier countrymen to extend to the moft important objects of political economy, the ufeful liberality of a Ruffel, a Coke or a Burdett, it will be attended with infinite advantages to the U States and richly repay the labors of the Editor.

On thefe accounts the fubfcriber has determined to move his eftablifhment to Wafhington city, emphatically denominated the Heart of the Union, as likely foon to become the feat of fcience and the nurfery of the arts.

Some time then in September next will be publifhed the 1ft number of a weekly newfpaper, entitled,

The Wafhington Expofitor,
OR
WEEKLY REGISTER.

Having it is believed, furmounted the difficulties hitherto experienced by the fubfcriber he has completed fuch arrangements, as will enable him, to prefent to his patrons a correct fheet in a handfome drefs, which will contain.

1ft. Statiftical facts particularly fuch as relate to national improvements, navigable canals, and turnpike roads.

2d. Facts refpecting the practice of hufbandry, including reviews of, and extracts from the beft books, which can be procured on that important fubject.

3d. Views of the various mechanic improvements by which labor has been economifed.

4th A conftant tendency to fupport the great diftinguifhing principles of federal America, viz. The right of every man who pays a tax or carries a gun in defence of his country, to the enjoyment of an equal fuffrage, the right of every man to the free exercife of his own religious opinion, as well as, that his home fhould be his caftle, free from obftruction of fearch.

With fuch views the Expofitor will be printed on a GOOD WHITE PAPER, of a ROYAL fize, with handfome type.

The price to fubfcribers will be 3 dollars per annum.

As confiderable labor and expence will be connected with this eftablifhment, no paper will be forwarded to any fubfcriber without an advance of the fubfcription money.

In order to afford room for as much information and amufement as poffible, after the firft infertion, every advertifement will be publifhed in a fupplemental fheet.

All fubfcribers to the Alexandria Expofitor who have hitherto paid with regularity, will be fupplied with the contemplated paper, except fpecial orders are received to the contrary.

Articles of intelligence, effays on general policy and the various circumftances connected with political economy, advertifements, &c. will be thankfully received at the office.

Letters relative to the bufinefs of the paper muft be addreffed Poft Paid to the Expofitor Office Wafhington city, otherwife they will not be taken up.

Subfcriptions will be received at the Office in Wafhington city, and Mr. Milligan's Georgetown.

The fcheme of the paper, being detailed, it is only neceffary to add, that when it receives adequate patronage, it will be rendered a femi weekly paper, and to requeft of fuch Editors, as approve the plan, to give this Profpectus a few infertions and thereby oblige their fellow-citizen,

RICHARD DINMORE.
