Valuable Seats for Iron Works.

THE subscriber offers for sale between Five and Six Thousand acres of Land bounded on one side by James River, including big and little Owen's Creek, and situate in Amherst county in the state of Virginia. This land is in the midst of a well and thick settled country, about 100 miles above the city of Richmond. There are not more than 30 acres of it cleared. The remainder is heavily timbered—consisting of large pines, white oaks, poplar, black walnut and chesnut. On Big Owens creek, and within 600 yards of James river, which is navigable for boats at all seasons of the year—there is an excellent site for any kind of water works. The stream is rapid and constant, and about threemiles from the seat are, as it is believed inexhaustible banks of Iron ore, which the subscriber has secured and which will be sold with the land. This ore has been tried and proved to be of a very superior kind. The land adjoining the seat is of excellent quality. Two hundred acres of timothy meadow might be made on the creek. The upland although hilly in places is well adapted to small grain, and a great proportion of it suitable to the raising of tobacco. Immediately around the site for water works are inexhaustible LIMESTONE Quarries, together with great quantities of the best building stone. In short there are many advantages combined to render this a most eligible spot for the erection of iron works, or any other kind of water works. It is deemed unnecessary to say more concerning this property than to request those who incline to purchase to view it. It will be shewn by captain Henry Halloway in the neighborhood. The price will be moderate, terms of sale which will be made very easy, will be made known on application to the proprietor residing in Georgetown district of Columbia.
