### THE THOUGHT BEHIND THE GIFT

The appreciated gift is cherished because it shows care and love and thoughtfulness that means more than mere giving.

Any one can rush into a store and say, "Oh, I'll give a pair of silk stockings."

What a difference when the stocking selected is a Gotham Gold Stripe. Then it isn't merely a silk stocking; it is the Christmas gift beyond compare—the stocking chosen not alone for its beauty, nor for its "no run" feature, nor for its durability, nor for the mending service, but also because of the helpful care and aid in selection that the expert salespeople at the Gotham Shops can supply.

Then it's the thought and care behind the gift that cements friendship and is long remembered—the appreciated gift.

"Gotham Gold Stripes" on a stocking means just this. Therefore don't give just "stockings," but give

that so beautifully express the thought behind the gift.

## THE problem of the selection of the handsomest and most useful Christmas gift is most happily solved by Thermos

Every member of the family, every one on the list of friendship, from infancy to old age—either in the hours spent at or away from home—have innumerable daily uses for Thermos. Thermos brings to them in the hot Summer months all of the comforts produced by ice, and in the cold winter season all of the joys to be obtained by fire—for

# THERMOS

### Serves them right—Food or drink—Hot or cold—when, where and as they like

Thermos is the ideal portable fireless stove. Richard Harold Davis proved that Thermos performed the service of keeping its contents piping hot for twenty-four hours, and the most efficient portable iceless refrigerator, keeping its contents frigid for three days and nights. The same Thermos receptacle should be placed in Thermos at a high temperature. The late Elbert Hubbard in an appreciation of Thermos wrote: "This and to keep hot contents should be placed in Thermos at a high temperature. Archdeacon Stuck, in the use of Thermos for hot coffee on the Arctic Trail, the atmosphere registering sixty degrees below zero, says that he never can get over the wonder of it, and that a Thermos Bottle would have made the fortune of a wizard in olden times, and probably have introduced him to the stake saving device.

In buying Thermos for "him" or "her" as your Christmas gift, you are selecting the invention honored with the Grand Prize by the Panama-Pacific Exposition, and by like Expositions at Berlin, Paris, Antwerp, Madrid, Seattle, Vienna and London. The high honors mentioned accruing to Thermos were because it is the original temperature retaining vessel and has achieved the distinction of being a boon to humanity. Originally expensive, Thermos vessels are now sold by all leading dealers throughout the world at \$1.00 up. Send for catalogue.
